

- Thin seat design allows for no loss of seat rows.
- Eliminates the need for add-on restraints or child seats for younger children.
- Five-point harness protection.
- Maintains full compartmentalization.
- Allows easy access and service to restraint systems and upholstery.
- Designed and tested by IMMI, the leader in child passenger safety.
- Meets or exceeds all federal and state safety standards.

*ICS also available with lap-shoulder belts.*

The SafeGuard ICS offers the security of a built-in child restraint system with a five-point harness for children 22 to 85 pounds.

## Five-Point Restraint Ease of Use

- Five-point restraint tightens at shoulder, providing easy access to webbing.

- Lift tabs to loosen five-point restraint.

- Sliding shoulder height adjusters enable ICS to restrain children of a wider range of heights than other integrated child seats.

## Features

Booster seat cushion with replaceable pad folds under itself for added comfort, elevation and cleanliness.

Improved buckle storage and location. Buckle fastens to seat and is available for next passenger.

Integrated tether anchors.

Optional LATCH.

IMMI, based in Westfield, Indiana, has been the industry leader in the design, testing and manufacturing of advanced safety systems for more than 50 years. Within the past decade, IMMI has introduced belted seating under its **SafeGuard®** brand to the U.S. school bus and motorcoach industries. Utilizing a modern crash-test facility, sophisticated engineering and advanced manufacturing operations, IMMI develops and supplies innovative, proven SafeGuard restraint systems and seating solutions for customers worldwide.
